MEMORANDUM FOR RECORD

SUBJECT: Request for Equipment Support for Waco Operation

1. On 25 MARCH 93 the Bureau of Alcohol, Tobacco and Firearms (ATF) requested the immediate loan of 12 M1009 vehicles and two trucks (2 1/2 or better) with taxis and drivers. They have ascertained that no commercially suitable vehicles are available in the local area. The M1009s will be used for off-road patrolling and perimeter security for the ongoing operation in Waco, Texas. The two trucks will be used for a possible contingency operation by the ATF in Waco.

2. Upon DOD approval the Texas National Guard will provide this support. Military markings will be obscured. Appropriate maintenance stock is already on hand; no additional personnel are needed to maintain trucks. ATF agents will operate the M1009 vehicles and National Guard personnel will operate the two trucks; they will not participate in any aspect of civil law enforcement and will be restricted to operations in safe and secure areas.

3. A standard DOD loan agreement will be completed prior to receipt of the equipment to the ATF and under the provisions of the Economy Act the Army will be reimbursed for all use. The ATF will also pay maintenance personnel per diem and all other identifiable direct and indirect costs. ATF point of contact to coordinate loan and for reimbursement instructions is DOD liaison officer, LTC Lon Walker (202 927-8020). The duration of this loan is indefinite (until completion of operations in Waco) but will not exceed one year.

4. Providing this equipment will not degrade military preparedness.

5. These actions are authorized under the provisions of the Economy Act and were coordinated with the National Guard Bureau (A), the Texas TAGS office, OSAGO ( ), OTJAC ( ), ANS/AS ( ), OAN-ES ( ), and ASA (TAR) ( ).

However, if the use for which the materiel is loaned will permit, materiel of a lesser condition will be loaned. This lesser condition will be noted on the appropriate loan documents. Nevertheless, the LENDER makes no warranty or guarantee of fitness of any of the materiel for any of the materiel for a particular purpose or use, or warranty of any type whatsoever.

d. Property will be inspected jointly by the LENDER and the BORROWER before acceptance by the BORROWER at the time of pickup and before acceptance by the LENDER at the time of return. A description of the actual condition of the property loaned is indicated in Appendix A. However, the property will be available "as is" at TSTC AIRPORT on 2 MARCH 1993.

e. In event of loss, damage, or destruction LTC [REDACTED] representing the LENDER will be notified immediately by the borrower.

### INFORMATION PAPER

A raid on a compound 20 miles east of Waco, Texas. The compound, belonging to a heavily armed religious cult, was suspected of producing Methamphetamine drugs and weapons.

The operation was planned by Bureau of Alcohol, Tobacco, and Firearms (ATF) in coordination with Operation Alliance, JTF-6, and the Texas National Guard providing operational support. The raid has been in the planning stages for about two months. Operational training of ATF agents in raid procedures was conducted by JTF-6 at Fort Hood, Texas. A National Guard C-26 assisted in Intel gathering about one and a half months ago.

The operation staging area is Texas State Technical College and Airfield. At about 1000 hours on 28 February 1993, the operation kicked off with about 90 ATF agents involved in the ground assault. At about 30 yards from the main complex, agents received heavy fire. As a result, 4 agents were killed and 16 were wounded. The agents then went into a defensive posture and negotiated a cease-fire after a 45 minute fire fight.

In support of the operation (initially) were three National Guard helicopters, 1 UH-60 Command and Control Aerial Platform, 2 RAID helicopters, providing communication and observations. All three received hits by weapons fire while approximately 400 - 450 yards from the building; three rounds hit the UH-60, three rounds in one RAID A/C, and one hit on the other. The A/C were hit by what appeared to be 7.62 rounds.

National Guard support consisted of eight Aviation and nine ground support personnel. Ground Support consisted of a bus, a water trailer, and a 2 1/2 ton truck with tents for base camps.

There were no National Guard casualties.

#### Other Information:

- o ATF tracked weapons part shipment made through UPS.
- o There appeared to be a leak of the operation by a newspaper reporter
- o The compound consisted of the main building on a 77 acre complex
- o About 75 people in main building - 50 women and

- children and 25 men who are all armed
- o They are believed to possess a 50 cal. machine gun or larger
- o 10 Bradley vehicles were loaned to the LEAs
  - 9 arrived at about 0115 on 1 March
  - 1 arrived at about 0300 on 1 March
  - Driver's Training was completed at 0530.
- o The Bradley's will move forward to within 200 yards of objective area at day-light
- o 2 UH-1 helicopters were loaned to the FBI for hostage evacuation. Crew Chiefs were needed but once mission becomes hot crew chiefs will not take part. Pilots will be FBI agents.

As of 0600, 8 children had been released from the compound. The leader, [REDACTED] agreed to release the children by two's each time he has granted access to the local radio stations. The total number of children in the compound is not known.

The Texas National Guard was providing support in accordance with their approved State Plan (approved by OSD), and IAW NGR 500-2 National Guard Counterdrug Support to Law Enforcement Agencies.

The status of personnel is Title 32 as all Counterdrug Support missions are performed.

Missions approved in the Texas National Guard State Plan for Counterdrug Support and provided in support of ATF:

- Mission 04 - Aerial Reconnaissance
- Mission 05 - Aerial Surveillance
- Mission 14 - Admin/Intel/Commo Support

Rules of Engagement for National Guard personnel in support of the operations are as extracted from NGR 500-2, at Enclosure.

The helicopters were hit at 400-450 yards from building while airborne.

Information received as of 1000 hours on 01 Mar 93:

- o The FBI has brought in a national hostage team
- o The Operation is now joint FBI/ATF
- o LEA leadership is currently in meeting expected to conclude at 1200 Central time

- o ATF have signed for the TX National Guard Bradley Fighting Vehicles

Information contained herein was consolidated from that received at the ARNG Operations Center and NGB Counterdrug Task Force.

**Appendix B****Rules of Engagement and Use of Force****B-1. Purpose**

The purpose of this guidance is to:

a. Emphasize the importance of safety in the conduct of counterdrug support operations.

b. Alert commanders to applicable areas of force protection, policy, and law.

**B-2. Force Protection**

Commanders at all levels will ensure that pre-operation (liaison) coordination and planning with supported law enforcement agencies address the safety of personnel and equipment throughout the operation. Consideration will be given to potential threats to Guard members and property for force protection purposes. Commanders will also ensure that public affairs efforts, directed at complying with the public's right to know, do not jeopardize the safety of Guard members and equipment by disclosing personnel identification in photographs or video recordings by the media.

**B-3. Use of Force**

All National Guard personnel will comply with the use of force guidelines contained in paragraph 2-2 of this regulations. Commanders at all levels must ensure that personnel are fully briefed upon, understand, and follow these restrictions.

**B-4. Aircraft Safety**

The operation of aircraft constitutes a significant potential hazard. Pilots in Command (PIC) are responsible for the aircraft and the lives of passengers and crew. In addition to other guidance on aircraft safety, the PIC will not fly into or land in areas where the aircraft is likely to be fired upon. PICs will take appropriate measures to ensure the safety of passengers and the aircraft when inserting law enforcement personnel during counterdrug operations.

**B-5. Support Role**

The role of the National Guard in drug interdiction and law enforcement support operations is to support LEAs. Commanders will ensure that their personnel are not placed in situations that are likely to bring them in direct contact with suspects. They will also ensure that Guard members are not knowingly sent or directed to enter into a hostile environment where there is a probability of encountering small arms fire or life threatening situations. If life threatening situations occur, they must be handled according to use of force rules. Any final decision to go or not to go into a possible life threatening situation should be made using prudent judgment, keeping in mind that the safety of personnel is our greatest concern.

**B-6. Arming of Troops**

The Adjutant General will determine whether or not troops will be armed. Since the National Guard is in a support role and not directly engaged in law enforcement, Guard members will not routinely be armed. Weapons and small arms ammunition, when issued, will only be used for personal protection. Arms and ammunition will be secured until issued. Rounds will be chambered only on order of the senior military member present and in conjunction with the supported LEA. Firearms will not be discharged from aircraft or motor vehicles.

**B-7. Rules of Evidence**

Court system rules provide that exhibits cannot be offered into evidence in legal proceedings unless a chain-of-custody can be shown. This is especially true for items subject to adulteration. To ensure admissibility of evidence, only LEOs should seize or possess any items that are considered, or may become, evidence.

**B-8. Tort Liability**

The Federal Tort Claims Act (FTCA) is applicable to Guard members engaged in drug interdiction and law enforcement support in a Title 32 status. Individuals whose property is lost, damaged, or destroyed, or who suffer personal injury or death as a result of a negligent act or omission of a Guard member acting

within the scope of his employment may file a claim against the United States under the FTCA. Guard members acting within the scope of their authority and performing approved support (listed in State Counterdrug Support Plans and approved by Office of the Secretary of Defense (OSD)) requested by LEAs, are immune from suit except for Constitutional torts (i.e., when a negligent act or omission constitutes a violation of the Constitutional rights of the injured party, including persons suspected of criminal activity); and, certain intentional torts, such as assault and battery, and false arrest or imprisonment. Guard members engaged in counterdrug support activities in State Active duty status are entitled to whatever protections and immunities are afforded by state law.

**B-9. Pre-commitment Briefing**

Prior to participating in an operation, Guard members will be provided with training as prescribed by this regulation and will be briefed on all aspects of the operation to include restrictions and limitations, use of force, safety, and force protection, and will be issued written guidance approved by the state JAG. Such written guidance will advise them of rules of engagement, their status (State Active Duty or Title 32), tort protection, and medical benefits. Guard members performing an operation of extended duration will receive an initial pre-commitment briefing and will be briefed semi-annually thereafter. The briefing officer will certify that personnel have been briefed. Copies of written guidance provided as well as lists of individuals briefed will be maintained by the states.

Authority to perform such checks on individuals volunteering for duty may be found in AR 380-67 and AFR 205-32.

(1) Each volunteer must be notified that integrity screening will be undertaken and that certain requirements must be met before a tour assignment can be made.

(2) Written consent will be obtained before background checks may be started.

(3) Personnel investigative reports and integrity determination information will be safeguarded and disposed IAW AR 380-67 or AFR 205-32.

(4) Integrity checks will collect the minimum amount of information necessary to determine suitability of the applicant for the Counterdrug Support Program. Sources which may be investigated include the military personnel records jacket, local criminal records, files of the National Crime Information Center, and other records. (See the Counterdrug Coordinator's Handbook, App D.) An applicant must also have a favorable NAC/ENTAC within the last fifteen years.

(5) Interviews of the Guard member will be conducted by the appropriate supervisor in the Counterdrug Support Program IAW AR 380-67, appendix G or AFR 205-37, attachment 7.

(6) Additional criteria determining eligibility for assignment to a sensitive position within the counterdrug program includes, but is not limited to, security standards set forth in AR 380-67, paragraph 2-200 or AFR 205-32, paragraph 8-1.

(7) Only personnel who are recommended by their unit commander as being suitable for the Counterdrug Support Program will be considered for such duty.

(8) Review each individual's medical record to ensure there are no preexisting or disqualifying conditions prior to placing them on orders. (See para 2-9, Medical requirements.)

#### 2-5. Planning

a. Each state will submit an annual Counterdrug Support Plan to the National Guard Bureau, ATTN: Counterdrug Task Force, for review and staffing prior to the plan's submission to SECDEF for approval. Plans will conform to Counterdrug Task Force guidelines and be approved and signed by the state Adjutant General.

b. Supplemental plans received after initial plan submission will be considered at the mid-year review. Upon approval at that time, funds will be authorized as available.

c. POMSOs/Counterdrug Coordinators will oversee preparation of plans for support as requested by a LEA.

d. The POMSO/Counterdrug Coordinator will establish and maintain a folder for each operation. The folder will contain all pertinent documentation to

required documents and the definition of "an operation" are contained in the Counterdrug Coordinator's Handbook.

e. All air assets will be controlled by the State Army Aviation Officer (SAAO) for the Army Guard and the Executive Support Staff Officer (ESSO) for the Air Guard. Counterdrug flying hour support requests will be reconciled with these offices. (See paragraph 2-9, Flying hours/air support, of the Counterdrug Coordinator's Handbook.)

f. Request Channels. LEAs will request support from the POMSO/Counterdrug Coordinator. Requests which are beyond the capability of the National Guard will be forwarded to the appropriate Continental United States Army (CONUSA) and will be coordinated by the National Guard CONUSA Liaison Officer. In areas where LEA federations such as Operation Alliance or Project North Star exist, the aforementioned may be altered to accommodate regional procedures. Retain plans and supporting documents for two years. (Specific coordination requirements are contained in the Counterdrug Coordinator's Handbook.)

g. Missions are consolidated to minimize duplication. The following missions list has been coordinated with and approved by the Office of the Secretary of Defense (OSD):

Mission #	Title
Msn # 1	Surface Reconnaissance
Msn # 2	Surface Surveillance
Msn # 3	Surface Transportation Support
Msn # 4	Aerial Reconnaissance

Refer to The Counterdrug Coordinator's Handbook for mission descriptions and requirements.

#### 2-6. Memoranda of Understanding (MOU)

a. For agencies receiving counterdrug support for a total of more than 30 days, states are required to develop MOUs with a LEA prior to providing the re-

SUBJECT: UNMANNED GROUND VEHICLE (UGV) SUPPORT TO THE FEDERAL BUREAU OF INVESTIGATION (FBI)

1. On Sunday, 7 Mar 93, the FBI formally requested the Unmanned Ground Vehicle-Joint Project Office (UGV-JPO), U.S. Army Missile Command (MICOM), Huntsville, Alabama, provide UGV support to law enforcement operations in Waco, Texas. (See Tab A)
2. The UGV-JPO, in conjunction with the prime contractor, Robotic Systems Technology (RST), Westminster, Maryland, responded by providing three Surrogate Teleoperated Vehicles (STV), along with associated support equipment. The vehicles were shipped on the morning of 8 Mar 93.
3. Representatives from the UGV-JPO and support contractor will provide on site operator, technical, and logistical support to FBI personnel.
4. The STV is a prototype, remotely controlled, ground vehicle. It is designed for battlefield reconnaissance and surveillance operations. The vehicles possess day and night cameras, Forward Looking Infrared (FLIR) imaging sensors, acoustic sensors, video recorder, and two-way voice communications. Additional vehicle characteristics are indicated at Tab B.
