

Requirements for Launching Private Donor Programs for Iraq

The Projects:

Two programs currently have the support of the Iraqi Ministry of Education (add other Projects and Ministries as appropriate, e..g Youth and Sport, Health).

- **Stocking Libraries** (write-up will be added as annex)
Selected titles only approved by the Ministry; starting with nine.
With hope of creating more.
- **Early Childhood materials and equipment** (List as annex)

The Need:

1. **Identify a US-based non-profit organization that can process electronic (and mailed, (b)(6)?) donations in an accountable fashion (and promote the projects, (b)(6)?)**

Tasks:

- Transfer the dollars to Iraq for the purchase in the region of the books/early childhood equipment/supplies (eces). This might require Arabic-speaking support in Iraq to work with the Ministry on purchases. (b)(6) if (b)(6) was going to take this on we could name him as contact here.)
- The US-based non-profit would also receive the receipts for the purchases (which will have to be translated to English by the Ministry) for follow-up accounting.
- Possibly provide technical expertise to the Ministry of Education for their website technical support.

2. **To support the project: The Ministry would be responsible**

Tasks

- for selecting the sites (both libraries and kindergartens)receiving the goods
- procuring the books/eces; and,
- arranging for distribution to the sites.
- providing copies of receipts to the NGO.

Document #9

3. Promotion of the project would be driven by the CPA donor website... the Ministry of Education website, would be linked to the CPA site and Members of Congress (?) and other organizations would also promote the effort.

Tasks

- Ministry would provide copy defining project, list titles (CPA also?) and keep a tally of how many of each title and how many libraries were complete on the site to motivate donors;
- Ministry would also list partners who are “competing” or are supplying books/eces to give them recognition.
