MAY 2006 STATUS OF FORCES SURVEY OF DoD CIVILIAN EMPLOYEES: TABULATIONS OF RESPONSES

Defense Manpower Data Center
Survey & Program Evaluation Division

Acknowledgments

Defense Manpower Data Center (DMDC) is indebted to numerous people for their assistance with the *May 2006 Status of Forces Survey (SOFS) of DoD Civilian Employees*, which was conducted on behalf of the Office of the Under Secretary of Defense for Personnel and Readiness (OUSD[P&R]). The SOFS program is conducted under the leadership of Anita Lancaster, Assistant Director for Program Management, and Timothy Elig, Chief of the Survey and Program Evaluation Division.

Policy officials contributing to the development of this survey included: Ellen Tunstall (Civilian Personnel Policy), Rick Lux, Wilson Fisher, Tim Curry, and Beverly McDaris (Civilian Personnel Management Service), and Ryan Leirvik (Readiness). Also contributing were Janice Lander and other staff from the Program Executive Office, National Security Personnel System.

DMDC's Program Evaluation Branch, under the guidance of Brian Lappin, Branch Chief, is responsible for the development of questionnaires used in the SOFS program. The lead developer on this survey was Karen Wessels. In addition, she designed the unique presentation of complex items used in this tabulation volume. She was supported in these efforts by Eric Kidwell and Kevin Durkee, Consortium Research Fellows.

DMDC's Survey Technology Branch, under the guidance of James Caplan, Branch Chief, is responsible for monitoring survey administration and constructing the survey database. The lead analyst on this survey was Deepika Batra, SRA International, Inc. Data Recognition Corporation (DRC) performed data collection and editing.

DMDC's Personnel Survey Branch, under the guidance of Jean Fowler, Branch Chief, is responsible for sampling and weighting methods used in the SOFS program. Owen Hung, SRA International, Inc., used the DMDC Sampling Tool to plan the sample and developed the weights for this survey. He also used DMDC's Statistical Analysis Macros to calculate the estimates presented in this tabulation volume. Susan Reinhold, Carole Massey, and Deborah West provided programming support for the sampling and weighting tasks.

Jacqueline Malone, SRA International, Inc., formatted and assembled this tabulation volume using DMDC's Survey Reporting Tool. A team consisting of Deepika Batra, Karen Wessels, Eric Kidwell, and Kevin Durkee completed quality control for this tabulation volume.

MAY 2006 STATUS OF FORCES SURVEY OF DoD CIVILIAN EMPLOYEES: TABULATIONS OF RESPONSES

Introduction to the Survey

The *Human Resources Strategic Assessment Program* (HRSAP), Defense Manpower Data Center (DMDC), conducts both Web-based and paper-and-pencil surveys to support the personnel information needs of the Under Secretary of Defense for Personnel and Readiness (USD[P&R]). These surveys assess the attitudes and opinions of the entire Department of Defense (DoD) community on a wide range of personnel issues. An exclusively Web-based survey program, known as the *Status of Forces Surveys* (SOFS), provides data several times per year on active-duty and Reserve component members and DoD civilian employees. Paper-and-pencil surveys are used to supplement Web-based surveys to obtain data on sensitive topics (e.g., sexual harassment) and from populations who may have limited Internet access (e.g., spouses of active and Reserve members).

This report contains tabulations of responses from the DoD civilian employee SOFS Web survey conducted April 10 to June 1, 2006. This introduction (1) summarizes the survey content, (2) defines the total population surveyed and the subgroups used in tabulations of responses, (3) summarizes the survey methodology,[1] and (4) provides details on how to use the tabulations. The tabulations and a copy of the survey items follow this introduction.[2]

Survey Content

The *May 2006 Status of Forces Survey of DoD Civilians* was subdivided into questions covering the following 13 topic areas:

1. *Background Information*—Military department, status (permanent/non-permanent), pay plan/grade, gender, race/ethnicity, tenure, age, education, retirement eligibility and plan, disability status, veteran status, supervisory status, location, and civil service personnel demonstration project/alternative personnel system status.

2. *Overall Satisfaction*—Satisfaction with aspects of working for the organization, overall satisfaction with the organization and the job, and level of personal and work stress.

3. *Satisfaction With Quality of Work Life*—Organizational and overall quality of work life satisfaction.

---

[1] Details on survey methodology are reported by Riemer and Kroeger (2003) and DMDC (2006b).
[2] Refer to DMDC (2006a) to view a screen-shot version of the survey as it appeared on the Web.

4. *Leadership and Management*—Level of agreement with a series of statements pertaining to managers/supervisors, along with satisfaction measures.

5. *Retention and Commitment*—Likelihood to continue to work for DoD, intentions to leave in the next five years, plans to look for another job in the coming year, and organizational commitment.

6. *Preparedness*—Individual and unit preparedness, along with perceptions of training effectiveness.

7. *Personnel Services*—Satisfaction with aspects of services and an overall assessment.

8. *Motivation/Development/Involvement*—Level of agreement with a series of statements related to high performing organizations,[3] and career and work motivation, development, and involvement.

9. *Personnel Actions*—Assessment of turnover, hiring, and whether supervisors/managers possess the authority, resources, and skills necessary for quality human resources management.

10. *Pay and Benefits*—Satisfaction with specific pay and benefits, overall measures of satisfaction with pay and benefits, and comparisons between federal and non-federal compensation.

11. *Performance Management*—Level of agreement with statements pertaining to performance recognition, compensation, and grievance/appeal procedures; measures of workforce quality and management of employees, along with satisfaction measures of recognition, feedback, pay, and training.

12. *National Security Personnel System (NSPS)*—Awareness and perception of possible impact of NSPS, agreement with statements pertaining to training effectiveness, and identification of the most important supervisor skills and abilities under the new personnel system.

13. *Structural Changes*—Awareness of various organizational structural changes (e.g. realignment/relocation).

Population and Reporting Categories

The target population for all civilian SOFS consists of DoD-appropriated-fund civilian employees (including Senior Executive Service [SES]), to include employees of the Department of the Army, Department of the Navy (including employees working at

Marine Corps locations), Department of the Air Force, and civilian employees working at DoD Agencies and Activities who have either full-time, part-time, or intermittent work schedules, and who had at least six months tenure at the time the questionnaire is first fielded. Survey results are presented for the total population and by a variety of reporting categories. To form the reporting categories for the tabulations, respondents are classified primarily by survey self-report. If the self-reported data are missing, then DMDC's *Civilian Personnel Master Edit File (CPMEF)* data, at the time of sampling, are used to impute the subgroup classification. Exceptions to this procedure include respondents assigned to groups within the Supervisor/Manager and Veteran categories. These categories are determined solely by responses to survey questions, because personnel record data are not available to make these specific distinctions. In addition, assignment to the SES subgroup (within the Pay Plan/Grade category), NSPS Status, and Occupational Groups categories was done exclusively from the *CPMEF*.

Survey results are tabulated by component, pay plan/grade, NSPS status, occupational groups, supervisor/manager, education, schedule/location, bargaining unit, disability, veteran/preference, type of appointment, retirement plan/eligibility, age, length of service, gender, and race/ethnicity. Definitions for reporting categories follow:

- *Component*—Groups include the three military departments, *Army*, *Navy* (including employees working at Marine Corps locations), and *Air Force*, along with *DoD Agencies/Field Activities*.

- *Pay Plan/Grade*—The group of *White Collar Total* includes General Schedule (GS) and related pay plans (e.g., General Manager and General Government, and comparable pay bands) at grade levels *GS 1 to 4*, *GS 5 to 8*, *GS 9 to 12*, *GS/GM 13 to 15*, and *SES* pay plan. The group of *Blue Collar Total* includes Wage Grade (WG), Wage Leader (WL), and Wage Supervisor (WS) at the *WG 1 to 5*, *WG 6 to 9*, *WG 10 to 15*, and *WS/WL 1 to 19* grade levels. The *NSPS Pay Plans* include all employees with pay plans under the new personnel system. *Demo/APS Pay Plans* include employees under a demonstration project or alternate personnel system, excluding employees under NSPS.

- *NSPS Status—Spiral 1.1* includes employees who were under NSPS at the time of the survey administration. *All Others* includes employees who were not under NSPS at the time of the survey administration.

- *Occupational Groups—Professional* refers to white-collar occupations that require knowledge in a field of science or learning characteristically acquired through education or training equivalent to a bachelor's degree (or higher) with major study in a specialized field. *Scientists* and *Engineers* are specific occupations within the *Professional* group. *Administrative* refers to white-collar occupations that involve the application of a substantial body of knowledge of principles, concepts, and practices applicable to one or more

fields of administration or management. *Technical* refers to white-collar occupations that involve work typically associated with and supportive of a professional or administrative field involving extensive practical knowledge gained through on-the-job experience and/or specific training less than that represented by college graduation. *Clerical* refers to white-collar occupations involving structured work in support of office, business, or fiscal operations; performed in accordance with established policies or techniques; and requiring training, experience, or working knowledge related to the tasks to be performed. *Other White Collar* refers to white-collar occupations that cannot be related to the *Professional*, *Administrative*, *Technical*, or *Clerical* groups (e.g., Fire Protection and Prevention, Police, Security Guard, General Student Trainee, Social Science Student Trainee). *Blue-Collar* occupations comprise the trades, crafts, and manual labor (unskilled, semiskilled, and skilled) including supervisory positions with trade, craft, or labor experience and knowledge as the paramount requirements.

- *Supervisor/Manager*—*Supervisor* refers to first-line supervisors who do not supervise other supervisors; they are typically responsible for employees' performance appraisals and approval of leave. *Manager* refers to those in management positions who typically supervise one or more supervisors. *Wage Leader* refers to those who lead three or more workers to (a) accomplish trades and labor work or (b) train them in the non-supervisory work of a trades and laboring occupation. *Wage Supervisor* refers to supervisors who exercise technical and administrative supervision over subordinate workers in accomplishing trades and labor work. *Team Leader* (white-collar) refers to work leaders who, on a regular and recurring part of their assignment, lead three or more employees in general schedule or equivalent occupations to (a) accomplish professional, administrative, technical, or clerical work or (b) train them in non-supervisory work in these occupations. *Non-Supervisor* refers to persons who are not supervisors or managers.

- *Education*—The group *No College* includes anyone without any college credit. *Some College* includes those with some college credit, including a 2-year degree, but does not include those with a 4-year degree. *4-year Degree* includes those with a 4-year degree and those with some graduate school, but no graduate or professional degree. *Graduate/Professional Degree* includes those with masters, doctorates, and first professional degrees.

- *Schedule/Location*—Work schedule is collapsed into two groups: *Full-Time* and *Other Than Full-Time*. *Other Than Full-Time* includes all persons with part-time and intermittent work schedules. Locations are defined as locality pay areas where respondents work that are collapsed into *CONUS* (within the contiguous 48 states and the District of Columbia) and *OCONUS* (outside the contiguous 48 states).

- *Bargaining Unit—Not in Bargaining Unit* are employees who are not members of a collective bargaining group, whereas *In Bargaining Unit* are members of such groups.

- *Disability*—Disability status is presented in two groups: *No Disability* and *Disability*. Subgroups under *Disability* include *Targeted Disability* and *Other Disability*. *Targeted disabilities* refers to disabilities "targeted" for emphasis in affirmative action planning (e.g., deafness, blindness, missing extremities). *Other disabilities* include disabilities that are not readily apparent (e.g., asthma, arthritis, and chronic fatigue syndrome).

- *Veteran/Preference*—Whereas the *Non-Veteran* and *Veteran* groups are exclusive, a limited number of non-veterans are included in the preference subgroups under the *Veteran* group due to their eligibility to receive a preference (e.g., widowed spouses of career military members who receive veteran's preference based on spouse's service).

- *Type of Appointment—Permanent* employees refer to those who have completed their probationary period for initial employment, whereas *Non-Permanent* employees refers to those still serving a probationary period.

- *Retirement Plan/Eligibility—CSRS* refers to employees enrolled in the Civil Service Retirement System, *FERS* refers to employees enrolled in the Federal Employee Retirement System, and *Other Plan* refers to employees in other retirement plans. *Not Eligible* refers to persons who are not yet eligible to retire. The conditions needed to be considered *Optional Eligible* are the same for persons retiring under FERS (if born before 1948) or CSRS. These conditions include the following: a) 55-59 years of age and having at least 30 years of creditable service, b) 60-61 years of age and having at least 20 years of creditable service, or c) 62 years of age or older and having at least five years of creditable service. *Optional Eligible* retirement under FERS differs for persons born during or after 1948; persons born during or after 1948 must meet the Minimum Age Requirements (set by year of birth) and have 10 or more years of creditable service. Hazardous duty employees (i.e., fire fighters, law enforcers) are *Optional Eligible* at age 50 with 20 years of creditable FERS or CSRS service. *Discontinued Service Eligible* includes persons who can retire under either FERS or CSRS if they are a) 50-54 years of age and have at least 20 years of creditable service, b) 55-59 years of age and have between 20-29 years of creditable service, or c) 49 years of age or less and have at least 25 years of creditable service.

- *Age & Length of Service*—The *Age* category includes five groups depending on the respondent's age, including *29 Years Old or Less*, *30 to 39 Years Old*, *40 to 49 Years Old*, *50 to 59 Years Old*, and *60 Years Old or More*. The length of service category refers to length of service working for the Federal Government. It includes all years of service that count toward a civil

service retirement, time working for the Department of Defense (or any other Federal agency), and years of military service. The five groups reported include *6 Months to 4 Years of Service*, *5 to 10 Years of Service*, *11 to 20 Years of Service*, *21 to 30 Years of Service*, *and More Than 30 Years of Service*.

- *Gender & Race/Ethnicity*—The *Gender* category is self-explanatory. *Race/Ethnicity* is classified based on self-reported categories consistent with requirements of the *Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity* (1997). *Total Minority* includes all persons marking one or more of the races other than White and/or marking that they are Spanish/Hispanic/Latino. *Non-Hispanic Black* includes persons marking only Black or African American and not reporting being Spanish/Hispanic/Latino. *Hispanic* includes anyone marking that they are Spanish/Hispanic/Latino, regardless of how they answered the question on race. *Non-Hispanic Asian* includes anyone marking that they are Asian and/or Native Hawaiian or Other Pacific Islander on the race question and not reporting being Spanish/Hispanic/Latino.

Survey Methodology

The Web survey administration process began on April 10, 2006, with the mailout of notification letters to sample members. The notification letter explained why the survey was being conducted, how the survey information would be used, and why participation was important. Throughout the administration period, additional e-mail and postal reminders were sent to encourage survey participation. Data were collected between April 24 and June 1, 2006.

Single-stage, nonproportional stratified random sampling[4] procedures were used. The sample consisted of 75,536 individuals drawn from the sample frame constructed from DMDC's *Civilian Personnel Master Edit File*. Members of the sample became ineligible if they indicated in the survey or by other contact (e.g., telephone calls to the data collection contractor) that they were not employed by DoD or its components as of the first day of the Web survey, April 24, 2006 (1% of sample).

Completed surveys (defined as 50% or more of the questions asked of all participants answered) were received from 42,530 eligible respondents. The overall weighted response rate for eligibles, corrected for nonproportional sampling, was 59%. Data were weighted to reflect the population of interest. These weights reflect (1) the probability of selection, (2) a nonresponse adjustment factor to minimize bias arising

[4] In stratified random sampling, all members of a population are categorized into homogeneous groups. For example, employees might be grouped by gender and component (e.g., all male Army personnel, all female Navy personnel in another). Members are chosen at random within each group. Small groups are oversampled in comparison to their proportion of the population so there will be enough responses from those groups to analyze. Weights are used so that groups are correctly represented in the analyses.

from different response rates among demographic subgroups, and (3) a poststratification factor to force the response-adjusted weights to sum to the counts of the target population as of the month the sample was drawn and to provide additional nonresponse adjustments.

Table 1 (pages 8-9) shows the number of respondents and the portion of total respondents in each reporting group. Also shown are the estimated number of members and the portion of total members in each reporting group. Differences in the percentages of respondents and population for the reporting categories reflect differences in the number sampled, as well as differences in response rates.[5]

Tabulation Procedures

Tabulations[6] for each question from the survey are shown on a set of facing pages. The text of the questions and response options are shown at the top of the even-numbered pages, with only the question repeated on the odd-numbered pages. To compress the width of columns in the tables, the response options are shown with a number, letter, or DNA (i.e., *Does not apply*); then that number, letter, or DNA is used as the column heading for the responses. The central feature of the tabulations is the percentage of members choosing the response options indicated by the column heading. Within a set of response options, percentages may not add to 100% due to rounding error.

Where an item lends itself to presentation as an average, that average is also shown as both a number estimate and in a bar chart. The averages lend themselves to a quick scan for reporting groups differing from other similarly defined groups. Where a true response continuum is available (e.g., number of years of service with the Federal government), the mean of that continuum is presented; in other cases, the responses are averages of the numeric scales presented with the response options. Where there is a simple binomial response (e.g., yes/no), only one percentage is presented. In this case, the bar chart represents that percentage.

On each page of tabulations, the first column lists the reporting group shown in that row. The second column, *Percent Responding*, lists the portion of the reporting group represented in the estimates in that row. In most cases, if this percentage is not 100, it reflects item nonresponse, and the table includes a note that "Percent responding are civilian employees who answered the question."

[5] There is also a slight difference in the treatment of missing data. Cases with missing data are included in counts of respondents, but are excluded in population estimates.

Not all questions apply to every respondent. Where possible, the Web survey is programmed to skip respondents over questions that do not apply to them. For example, Q67 (How useful is the feedback?) does not apply to those who marked in Q66 that they do not receive regular performance feedback. The table note for this question indicates, "Percent responding are Civilian employees who answered the question and reported they receive regular performance feedback (Q66)."

The survey does not always skip questions that do not apply to the respondents. In the tabulations, *Does not apply* responses are typically included in the percentages in the *Percent Responding* column. For example, Q58 asked members to indicate their satisfaction with various aspects of pay and benefits. Survey participants can indicate that the question does not apply.

Combining Information From Multiple Items

Tabulations in this volume generally present data for individual survey questions. There are three exceptions. The first type of exception is where the results for multiple items are presented on a single set of pages (e.g., pay plan/pay grades).

- In Q4-Q10, respondents are asked details regarding their pay play/grade. Responses to Q4-Q10 are combined into a single set of tabulations (Q5) that assign survey participants to one of 11 categories of pay plans/grades.

The second exception is where respondents can provide multiple answers to a single question (e.g., race).

- In Q13, respondents are asked to mark one or more races. The tabulations show the percentage who responded that they were White, Black or African American, American Indian or Alaska Native, Asian, and/or Native Hawaiian or other Pacific Islander. Respondents who indicated more than one race are also shown in the percentage of More Than One Race Marked. For example, if a respondent indicated they were Asian and White, they were counted in the percentage as Asian, White, and More Than One Race Marked.

The third type of exception pertains to composite measures of organizational commitment.

- Three measures of organizational commitment (Q42) are presented. *Affective Commitment* can be defined as an emotional attachment to, an identification with, and an involvement in, an organization (Q42a, b, e, h, j, and m). *Continuance Commitment* can defined as an attachment based on the perceived costs of leaving an organization (Q42c, f, i, l, and n). *Normative Commitment* can be defined as a sense of obligation to remain in an organization (Q42d, g, and k). In the tabulations, individual items in this measure are presented first; after the individual items, there are three sets of tabulation pages that show composite measure results. Lower scores on these measures indicate less organizational commitment, whereas higher scores represent more organizational commitment.

Margins of Error

The complex sample design required weighting to produce population estimates (e.g., percent female).[7] Because of the weighting, conventional formulas for calculating the margin of error will overstate the reliability of the estimate. For this report, variance estimates were calculated using SUDAAN© PROC DESCRIPT (Research Triangle Institute, 2004).

By definition, sample surveys are subject to sampling error. Standard errors are estimates of the variance around population parameters, such as percentages or means, and are used to construct margins of error (i.e., confidence interval half-widths). Percentages and means in these tabulations are reported with margins of error based on 95% confidence intervals. In order to compress the data displayed, only the maximum margin of error (Max ME) for each reporting category is shown. That is, the tab volume shows only the largest margin of error for the percentages or means in each row. For each average shown in these tabulations, its margin of error is also printed.

Estimates may be unstable based on a small number of observations or relatively large variance in the data or weights. Particularly unstable estimates are suppressed or annotated in these tabulations. The following rules are used:

- "0" indicates that no one in any reporting group selected the response option,
- NR indicates the estimate is *Not Reportable* because it was based on fewer than 30 respondents or the relative standard error was high. NR frequently occurs for percent responding and not for the percentage estimates because the sample sizes in the "percent responding" cell are relatively small (i.e., 31 to 140), making it difficult to reliably estimate extreme values (i.e., percentages greater than 95% or less than 5%),
- NA indicates the response option was *Not Applicable* because the question did not apply to respondents in the reporting category based on answers to previous questions,
- no Max ME is printed when all percentages in the row are shown as NR,
- no margin of error is printed for an average when it is shown as NR.

[7] As a result of differential weighting, only certain statistical software procedures, such as SUDAAN, correctly calculate standard errors, variances, or tests of statistical significance for stratified samples. ©Copyright 2004 by Research Triangle Institute, P.O. PRIVACY ACT STATEMENT & INFORMED CONSENT INFORMATION FOR STATUS OF FORCES SURVEYS

In accordance with the Privacy Act, this notice informs you of the purpose of the Status of Forces Surveys and how the findings of these surveys will be used. It also provides information about the Privacy Act and about informed consent. Please read it carefully.

AUTHORITY: 10 United States Code, Sections 136, 1782, and 2358.

PRINCIPAL PURPOSE: Information collected in this survey will be used to research attitudes and perceptions about personnel programs and policies. This information will assist in the formulation of policies which may be needed to improve the working environment. Reports will be provided to the Office of the Secretary of Defense, each Military Department, and the Joint Chiefs of Staff. Findings will be used in reports and testimony provided to Congress. Some findings may be published by the Defense Manpower Data Center (DMDC) or in professional journals, or presented at conferences, symposia, and scientific meetings. In no case will the data be reported or used for identifiable individuals. Briefings and reports on results from these surveys will be posted on the following Web site: http://www.dmdc.osd.mil/surveys/

ROUTINE USES: None.

DISCLOSURE: Providing information on this survey is voluntary. Most people take 16-30 minutes to complete the survey. There is no penalty if you choose not to respond. However, maximum participation is encouraged so that the data will be complete and representative. Your survey responses will be treated as confidential. Identifying information will be used only by government and contractor staff engaged in, and for purposes of, the survey research. For example, the research oversight office of the Under Secretary of Defense (Personnel and Readiness) and representatives of the U.S. Army Medical Research and Materiel Command are eligible to review research records as a part of their responsibility to protect human subjects in research. This survey is being conducted for research purposes. However, if a direct threat to harm yourself or others is found in survey comments or communications about the survey, DMDC is legally required to forward information about that threat to an office in your area for appropriate action.

SURVEY ELIGIBILITY AND POTENTIAL BENEFITS: DMDC uses well-established, scientific procedures to select a sample that represents the Defense community. This sampling procedure sets up clusters of people based on combinations of demographic characteristics (e.g., location, gender). You were selected at random from one of these clusters of people. This is your chance to be heard on issues that directly affect you. While there is no benefit just for you for your individual participation, your answers on a survey ***make a difference***. For example, results from previous surveys have played an important role in deliberations on pay rate adjustments, cost of living and housing allowances, and morale and retention programs.

STATEMENT OF RISK: The data collection procedures are not expected to involve any risk or discomfort to you. The only risk to you is accidental or unintentional disclosure of the data you provide. However, the government and its contractors have a number of policies and procedures to ensure that survey data are safe and protected. For example, no identifying information (name, address, Social Security Number) is ever stored in the same file as answers to survey questions. Answers to survey questions may be shared with organizations doing research on DoD personnel but only after minimizing detailed demographic data (for example, paygrade and detailed location information) that could possibly be used to identify an individual. A confidentiality analysis is performed to reduce the risk of there being a combination of demographic variables that can single out an individual. To further minimize this risk, some variables are randomly set to missing. Government and contractor staff members have been trained to protect client identity and are subject to civil penalties for violating your confidentiality.

If you cannot access the Web or experience any other problem with the survey, please e-mail CIVSurvey@osd.pentagon.mil or leave a message any time, toll-free, at 1-800-881-5307. If you have concerns about your rights as a research participant, please contact Ms. Caroline Miner, Human Subjects Protections Specialist, Deployment Health Support Division, 5113 Leesburg Pike, Skyline 4, Suite 403, Falls Church, VA 22041, humansubjects@deploymenthealth.osd.mil, (703) 575-2677, Fax (703) 824-4216..

SECURITY PROTECTION ADVISORY

WEB SITE PRIVACY: Neither the Department of Defense nor Data Recognition Corporation will collect personal information about you when you visit this Web site unless you choose to provide it yourself. If you supply us with personal information, it will be treated as confidential.

In addition, our system does not enable "cookies," which are files placed on your computer's hard drive in order to monitor your use of the site or the Web. For more information about your privacy rights, please read the Privacy Act Statement at the start of the survey.

This Web site does gather certain data from your visit but does not store it in a way that it can be linked to you. This non-personal information helps us make the site more useful by recognizing the types of technology being used. The data collected appear below:

1. The Internet Protocol (IP) address for the computer and the server being used on the Internet (for example, www.compuserve.com, www.aol.com, 122.3.55.34). Depending on your Internet service provider, IP addresses may identify your computer; in other cases, they identify no more than your Internet service provider (such as AOL or Earthlink).
2. The type and version of the browser and operating system used to access our site.
3. The date and time this site was accessed.
4. Number of bytes sent and number received.
5. The pages visited.

This information is stored permanently for troubleshooting technical problems and for future capacity planning. It cannot be linked to any survey response data and resides in a completely different database. It may be shared with DoD as required for troubleshooting connections from DoD computers.

None of this information will be revealed publicly or used to identify you

FREQUENTLY ASKED QUESTIONS

What is the Status of Forces Survey (SOFS) Program?

- SOFS is a Department of Defense (DoD) personnel survey program that features short, Web-based surveys sponsored by the Under Secretary of Defense for Personnel and Readiness USD(P&R).
- These surveys enable the DoD on a regular basis to quickly and accurately gauge the attitudes and opinions of the entire DoD community – active-duty or Reserve component members, and DoD civilian employees – on the full range of personnel issues.

Why should I participate?

- This is your chance to be heard on issues that directly affect you.
- Some examples of topics include: quality of life, retention, retirement, and satisfaction.
- Your answers on a survey make a difference. For example, results from previous surveys have played an important role in deliberations on pay rate adjustments, cost of living and housing allowances, and morale and retention programs.

How did you pick me?

- We use well-established, scientific procedures to select a sample that represents the Defense community.
- This sampling procedure sets up clusters of people based on combinations of demographic characteristics (e.g., location, gender)
- You were selected at random from one of these clusters of people.

Why am I being asked to use the Web?

- Web administration enables us to get survey results to senior Defense leaders faster.

Why are you using a .net instead of a .mil domain to field your survey?

- The SOFS survey program starts off on a .mil site within DMDC. Next, each person is redirected to a contractor site which uses a .net domain because this makes it as easy as possible for everyone to access the survey, even from a non-government computer. The survey is administered by our contractor, Data Recognition Corporation, an experienced survey operations company.

Do I have to take the survey in one sitting?

- No, it is not necessary to complete the survey in one sitting. Just click the "Save and Return Later" button and the work you completed will be saved.
- When you return to the survey, merely enter your Ticket Number again and this will bring you to the place in the survey where you had stopped.

Why does the survey ask personal questions?

- The Defense Manpower Data Center (DMDC) reports not only overall results, but also results by location, gender, etc. To complete these analyses, we must ask respondents for these types of demographic information.
- Analyzing results in this way provides Defense leaders information about the attitudes and concerns of all subgroups of personnel (e.g., US/Overseas, males/females) so that no groups are overlooked.
- Sensitive questions are sometimes also asked about topics like personal finances. Such information will be used to improve personnel policies, programs, and practices. As with all questions on the surveys, your responses will be held in confidence.

Will my answers be kept private?

- Your privacy will be safeguarded in accordance with the Privacy Act of 1974 (Public Law 93-579).
- Only group statistics will be reported. Individual data will not be reported.

Will I ever see the results of the survey?

- This survey's briefings and reports will be posted on the following Website: http://www.dmdc.osd.mil/surveys/
- As you complete a survey, there is a section where you can request to be notified by e-mail when results are posted on the Web.

What is DMDC?

- DMDC maintains the largest archive of personnel, manpower, training, and financial data in DoD. It also conducts Joint-Service surveys and operates the Status of Forces Survey Program for the DoD. To learn more, visit the DMDC web site: http://www.dmdc.osd.mil/

How do I know this is an official, approved DoD survey?

- In accordance with DoD Directive 8910.1, all data collection in the Department must be licensed and show that license as a Report Control Symbol (RCS) with an expiration date. The RCS for the SOFS is DD-P&R(AR)2145, expiring 05/31/08.

What is CivSurvey@osd.pentagon.mil?

- The official e-mail address for communicating with DoD civilian employees about Status of Forces Surveys. "CivSurvey" is short for Civilian Survey.
