MEMORANDUM FOR WX/DIRECTOR, SPECIAL ACTIVITIES, OFFICE OF DOD AND
INTERAGENCY AFFAIRS, NATIONAL AERONAUTICS AND SPACE
ADMINISTRATION

DECLASSIFIED IN FULL
Authority: EO 13526
Chief, Records & Declass Div, WHS
Date: APR 03 2014

ATTENTION: MR. MYRON W. KRUEGER

SUBJECT: Plans for Earth-Looking Photography for Apollo-Soyuz Test
Projects

REFERENCE: NASA memorandum by Myron W. Krueger, dated May 9, 1975

(U) We have reviewed your plan for processing the earth-looking photo-
graphy for the ASTP. We believe that this photography will raise no
intelligence or technical security problems. We also believe that
your plan will obviate most of the potential causes for adverse inter-
national reactions. We do recommend, however, that the following
steps be included in the plan:

1. (U) That the briefing being prepared for the flight crew on potential international repercussions be given an interagency review to ensure that all possible problem areas are included.
2. (U) That public affairs guidance be prepared to prevent inadvertent highlighting of photography which might prove an irritant to some foreign states. This guidance could follow that of SKYLAB. We believe that an interagency review here would also be useful.

(U) I am responding for the ODDR&E and for SAFSS who concur in the above, as well as ISA.
