Date: MAR 26 2014

Mr. Charles W. Mathews
Associate Administrator, Applications
National Aeronautics and Space Administration
Washington, D. C. 20546

Dear Chuck:

Attached are minutes of the second meeting of the Steering Group on Military Use of Civil Applications Satellite Data.

The IDA briefing charts attached to the minutes are representative of the material which will be in the final IDA report. I understand that IDA is scheduled to brief you on their study results on 9 October 1974. I would appreciate any comments, additions, or corrections you may wish to make as soon after the briefing as practical so that these may be appropriately treated in the final report due the end of October.

The SPC work is dependent on the technology assessments and projections being done by IDA. Thus, SPC is not as far along on their study and their briefing charts do not properly display the final results expected from SPC. Therefore, I request that you not distribute these SPC charts within NASA.

Sincerely,

Robert S. Cooper
Assistant Director
Space & Advanced Systems
